DETAILED ACTION

Examiner's Amendment

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Examiner's Amendment/Comment".

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Alan Young on August 18, 2008.

In regards to claim 29, please change the limitation "The computer system of claim 12" to "The computer system of claim 23" (see line 1 of claim).

In regards to claim 1,12, and 23, please change the limitation "matching the generated message to one of the plurality of stored standard errors and when the generated message does not match one of the plurality of stored standard errors, assigning a likelihood that the generated message is an error message when the generated message does not match one of the plurality of stored standard errors in the knowledge base of standard errors" (see lines 18-22 of claim) to "determining

the generated message is an error message when the generated message matches one of the plurality of stored standard errors and assigning a likelihood that the generated message is an error message when the generated message does not match one of the plurality of stored standard errors in the knowledge base of standard errors".

Examiner's Statement of Reason for Allowance

Claims 1-36 are allowable over the prior art of records.

The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1-36 are allowable over the prior art of record because the examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts.

The reason for allowance for claims 1,12, and 23 is the inclusion of assigning a likelihood that the generated message is an error message when the generated message does not match one of the plurality of stored standard errors in conjunction with the rest of the limitation set forth in the claim.

The reason for allowance for claims 34,35, and 36 is the inclusion of when the generated message is determined to have a high likelihood of being an error message, generating a log entry in conjunction with the rest of the limitation set forth in the claim.

The remaining claims, not specifically mentioned, are allowed for being dependent upon one of the claims mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
